MEMORANDUM

TO: Joint Fiscal Committee
FROM: Andrew Pallito, Commissioner, Department of Finance & Management
RE: 27/53 Reserve Schedule
DATE: September 15, 2016

Pursuant to 32 V.S.A. § 308e(a)(2), the attached spreadsheet provides the anticipated liability for the next 53rd week of Medicaid payments and the next 27th state payroll. The 27/53 Reserve was established during the 2016 legislative session to provide a process to annually reserve funds for known future liabilities to minimize budgetary impact in the years that the liabilities come due. The new statute requires the Commissioner of Finance and Management to present the anticipated future liabilities of the next 27th payroll and 53rd week of Medicaid and provide a schedule of annual contributions needed to cover the future payments.

The next 27th payroll is scheduled to occur in FY 2022, and has an estimated General Fund cost of \$12.7M. This estimate was derived by taking the estimated FY 2017 payroll and projecting the FY 2022 payroll costs assuming an Annual Base Increase (ABI) of 2.25% (the bargained rate for the FY 2018 Contract year) and an average annual step increase of 1.7%, for a total annual growth rate of 3.95%. Annually, for this report, Finance and Management will update projections for the 27th payroll based on the current year estimated payroll and known bargained ABI and reforecast the future liability. The ABI used in this projection does not represent the Administration's position in any future contract negotiations. The ABI used is for projection purposes only.

The next 53rd week of Medicaid payments is also scheduled to occur in FY 2022, and has an estimated General Fund cost of \$11.21M. This estimate was derived by taking the FY 2017 budgeted Medicaid costs and projecting the FY 2022 costs by a growth rate equivalent to the 3 year average Bureau of Labor Statistics' CPI for Medical care (Aug 2013 – July 2016), or 2.64%. Annually, Finance and Management will update the projections based on the current Medicaid budget and the updated 3 year average Medical CPI.

The attached spreadsheet provides a schedule for transfer to the 27/53 Reserve to ensure that there are funds available to help meet future liabilities for the 27th payroll and 53rd week of Medicaid. Based on current estimates the prior year fund balance, \$3.72M should be reserved annually to meet these future liabilities.

Per 32 V.S.A. 308e (b), \$3.72M shall be presented as a budgeted transfer in the FY 2018 Governor's Recommended Budget.
