BDA Query: VT_BDA_USAGE

A Public query is now available to report on BDA use. You must specify your GL Business Unit and a date range. It's up to you whether or not you put in specific BDA criteria.

Description Field:

If you do not type in a description, the description associated with the BDA will default in the Description Field. If your business process requires you to use the description field for some other purpose, you may type in a different description. After the voucher is saved, the description you type in will remain.
