Revisions to Manual

February 2024

- Updated for PeopleTools 8.6 upgrade

September 2022

- Updated bank information

July 2021

- Updated the Deposit ID Number Format section on page 11

October 2020

- Updated the listing of Deposit ID Variable Codes on page 11

March 2019

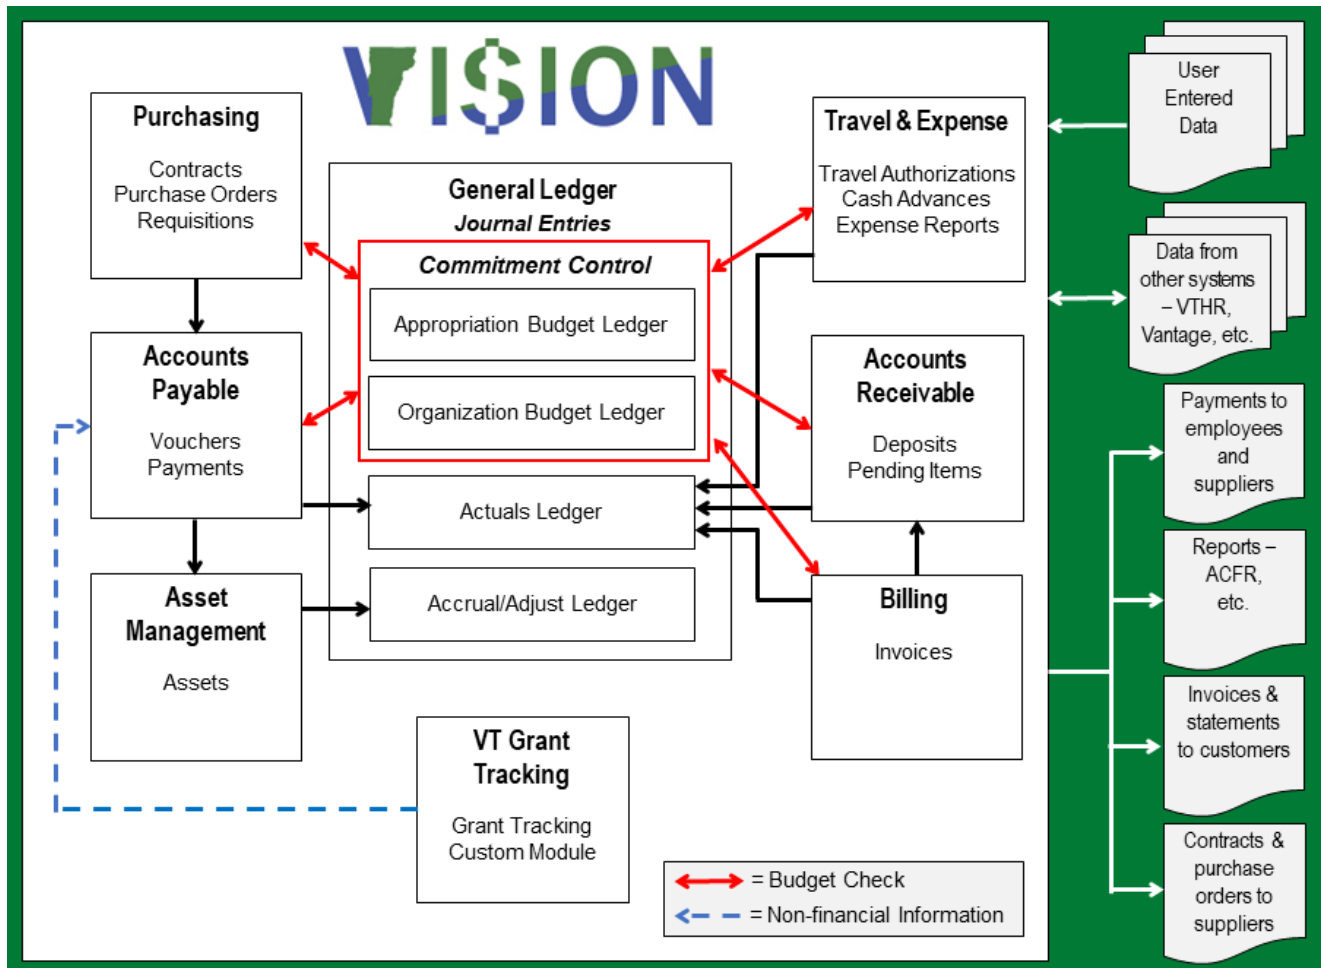

- Manual finalized

December 2018

- Manual written

Introduction to Direct Journal Deposits

Overview of VISION Financial System

Frequently asked Questions

Why is my direct journal deposit not showing up so that I can create accounting entries for it?

The system did not create any payment lines because the Journal Directly box was not selected on the Payments page of the regular deposit. Navigate back to the regular deposit and select the Journal Directly box on the payment tab and save. Now your direct journal deposit will be available for you to create the accounting entries. If this box is already selected and you are still not able to create accounting entries, then contact [VISION Support](#) for further assistance.

Helpful Hints

What are some basic things I should know about entering a deposit?

- Use separate deposit slips for checks and refunds
- Deposits should be entered into VISION within 24 hours of depositing money at the bank
- The deposit number used in VISION is the 10-digit number at the bottom left-hand side of your deposit ticket
- When entering your deposit do not change the Accounting Date, accept the defaulted date (current date)
- The Received Date should be the process date on your deposit ticket
- Make sure when processing a Refund of Expenditure that the Deposit Type selected is "R"

Why do I get an error message: No matching values were found? When inquiring on a deposit that has been complete and/or budget checked?

Once you Complete and/or budget check a deposit you can no longer navigate to the deposit using the navigation for entering a regular deposit: Accounts Receivable > Payments > Online Payments > Regular Deposit.

For a deposit that has been completed and/or budget checked you would use the following classic navigation: Accounts Receivable > Payments > Direct Journal Payments > Modify Accounting Entries or Accounts Receivable WorkCenter > Links pagelet > Payments > Modify Accounting Entries.

What am I doing wrong to receive this error message? Credits do not equal the payment amount. The revenue lines must offset the payment amount before you can create the cash line.

When entering the accounting entries, the Line Amount field needs to be entered as a credit. If you enter the line amount as a debit you will receive the above message. Click the ok button and enter the line amount as a credit. Click on the lightning bolt and the cash side of your accounting entries will be created.

Why can't I delete a deposit where only one line of the deposit has been budget checked?

Once you budget check one line of a deposit you cannot delete the deposit or add additional payment lines. If the Deposit ID was entered incorrectly, continue with your deposit and let the Treasurer's office know that you entered a deposit with the incorrect Deposit ID. The Treasurer's office will need to know the incorrect deposit ID as well the correct Deposit ID.

Why is the delete button grayed out when I try to delete a deposit?

Once you create accounting entries for at least one of the payment lines in a deposit the delete button will gray out. If no lines have been budget checked within the deposit and you did want to delete the deposit because you noticed that the Deposit ID was entered incorrectly, delete the accounting entries created and go back to the regular deposit. The delete button will now be available. You can find how to delete deposit instructions within this manual.

How do I correct a deposit that is budget checked and posted to the General Ledger that where I entered an incorrect account #?

Once a deposit has been budget checked and posted, you cannot go back to the deposit to correct an incorrect account. To correct accounting entries, you will create an ONL journal by debiting the incorrect account and crediting the correct account. Remember the fund and dept Id and any other chartfield information will need to be entered in the journal. When you enter the long description add as much information as to why you are processing the ONL. Add the deposit ID, date of deposit, and a brief explanation.

How do I delete a deposit once I have partially entered the deposit?

Depending on where you are in the deposit determines the steps you take to delete. You cannot delete a deposit that has been budget checked, even if only one line of the deposit was budget checked. Below are the different stages of a deposit:

- **Stage 1:** Only the Regular Deposit portion of the deposit has been entered; no accounting lines have been created
- **Stage 2:** The Revenue Side (first side) of Direct Journal Line accounting entry has been created
- **Stage 3:** Cash Side (second side) of Direct Journal Line accounting entry has been created
- **Stage 4:** Direct Journal deposit line is Complete

Navigation and directions are in the Manual listed under table of contents: [Delete Direct Journal Deposits](#) (instructions for each of the possible stages).

Note: If you are unable to delete a deposit using this method and the deposit was entered during a month that is currently open, Finance may be able to unpost it. If a deposit can be unposted by Finance, then a new deposit will need to be entered with a unique deposit ID. Please contact the [VISION Helpdesk](#).

Deposit Preparation

Order of Deposit Documents

1. The deposit ticket should always be the first document
2. Checks should be placed after the deposit ticket
3. Cash and/or coin should be placed last

Maximum Number of Checks

1. The maximum number of checks allowed in a single deposit is 250

Adding Machine Tape and/or Reports

1. All deposits should include an adding machine tape listing of the checks included in the deposit.
2. The adding machine listing should be placed directly after the deposit ticket
3. Computer-generated check listings should be folded and placed directly after the deposit ticket

Foreign Check Deposits

1. Do not mingle Canadian checks with regular checks. Canadian checks should be deposited separately with their own deposit ticket.
2. Do not mingle foreign checks with regular or Canadian checks. Checks drawn on foreign funds should be deposited separately with their own deposit ticket.
3. To help expedite the processing of Canadian and foreign checks, please write "CANADIAN" and/or "FOREIGN CHECKS" on the front of the deposit ticket.

Deposits - Business Process, Reminders, Hints

All Deposits

- **Dates-** Acctg. Date = Leave Current Date default, Received Date = Change to match bank receipt date if necessary, Entered Date = Current Date, not available to change
- **Enter deposit in VISION within 24 hours of making bank deposit**
- **Bank Errors on Deposits:** If you think the bank may have made a mistake on your deposit, you should contact the Treasurer's Office via e-mail TRE.Deposits@vermont.gov to see what happened on the bank statement. Make your VISION entry for the correct amount of the deposit. This will eliminate having to process the DR/CR Memo. However, any other corrections made by the Bank will be processed as a DR/CR Memo. For detail information on Debit/Credit memos you can visit the Finance and Management Web site.
<http://finance.vermont.gov/training-and-support/vision-job-aids-and-operational-guidance>

VISION Errors on Deposits: If a deposit is entered in VISION incorrectly from what was deposited at the bank the following will need to occur to correct:

1. If your entry is made in VISION for more than the deposited amount at the bank, enter an ONL journal entry for the difference to correct. Debit the revenue account and credit the cash account. Instructions on entering in an ONL can be found in the General Ledger manual at <https://finance.vermont.gov/>. Also contact Treasurer's Office via email TRE.Deposits@vermont.gov
2. If your entry is made in VISION for less than the deposited amount at the bank, enter a new deposit in VISION for the difference using the same original deposit # with an A at the end to make it unique. Also contact Treasurer's Office via email TRE.Deposits@vermont.gov
3. If a deposit posts in VISION with an incorrect Deposit ID, contact the Treasurer's office via email TRE.Deposits@vermont.gov to let them know the correct ID – this helps with their reconciliation. When the Treasurer's Office reconciles the bank records to VISION the key fields to reconciling are the Deposit ID and deposit amount

MER Queries – Run month end queries (anytime throughout the month) to check for open items that need to post or may be in error. See the [Month End Closing Instructions](#) or the [Reporting Manual](#) for more information.

Direct Journal Deposits

- **Types-** C= Cash/Check, R= Refund of Expenditure, D= Credit Card, L= Lockbox (do not mix different types of deposits)
- A deposit does not journal generate to the general ledger until it is budget checked. Deposits that are budget checked the same day they're entered in VISION will journal generate with the same accounting date. This is important when you approach the end of the month to make sure all deposits entered in that month have been budget checked, to avoid a deposit entered in one month and journal generated in the next month
- You can budget check direct journal deposits by a batch process. The Budget check process is run by Business Unit. If you are a department or agency that has several locations where deposits are entered within your Business Unit, you need to be careful when running the batch process as it will pick up any deposit that has been saved as complete
- Account, Fund and Dept ID are required fields, make sure you have entered them all before budget checking your deposit line
- Once a deposit has been checked complete and saved, the next step is to budget check. if you are not in the deposit, navigate to: Accounts Receivable > Payments > Direct Journal Payments > Modify Accounting Entries > Find an Existing Value

Make sure to check all lines of deposit for accuracy before budget checking. Once you budget check one line of a deposit you cannot go back to the regular deposit and add any additional lines nor delete any lines. Example if you have three lines and for some reason one line had a dollar amount of .00 you cannot delete that line if one other line in the deposit is budget checked. Therefore, it is important before you budget check to verify that all data in deposit is correct

Deposit ID Number Format for ACH & Wires

This format only applies to departments where the deposit has no prenumbered deposit ticket or remote deposit capture ID number. **This numbering scheme is for departments who receive money via Wires and ACH. If you're a department that uses a deposit ticket always use the 10-digit Deposit ID number assigned on the bottom left of deposit ticket.**

Note: Do not enter the word NEXT in the deposit ID field. Use the numbering scheme listed below.

Departments are to use the following numbering scheme:

- First 4 numbers are BU (no leading zero)
- A variable (see below)
- The date the money was deposited at the bank (MMDDYY)

This produces an 11-digit Deposit ID. If there are more than one of a particular type of deposit in a day, add an "A", "B", etc. at the end of the ID.

Deposit ID Variable Codes

- D = Depository Account Back Acct# XXXXXX0493
- F = Fed Fund Account Bank Acct # XXXXXX0451
- C = Office of Child Support-Incoming Account
- S = Credit Card Settlement Account Bank Acct# XXXXXX2039
- W = Credit Card Online Account Bank Acct# XXXXXX0519

Example: Deposit for Business Unit 01110, a wire received into the depository account on March 7, 2007 and it is the second one for that day – **Deposit ID = 1110D030707A**

If you have any questions, contact the State Treasurer's Office via e-mail at TRE.Deposits@vermont.gov

Debit/Credit Memo Business Process

Situation when this function is used: A debit/credit memo is received from the bank each time an adjustment is made to the State's bank accounts. Usually, these changes result from an incorrect deposit or a returned check. You should refer to the Finance & Management Web Site - [Debit/Credit Memo Procedure](#).

A summary of the procedure is outlined below:

Chartfields:

- **Account 101096 - DR/CR Memo Cash Clearing**
- **Fund (Agency) 63096 - DR/CR Memo Cash Clearing**

Process Flow:

- Treasurer's Office receives debit/credit memo from bank
- They process a CAJ journal entry adjusting depository cash account 101102 to 101096 using Fund 63096
- They send electronic document copies to the appropriate Department
- The Department processes a TSF journal entry within 5 days of receipt of the debit/credit memo, using affiliate 00005, appropriate Fund, Dept ID, etc. and account 100105 and the appropriate offset (revenue) account based on the original deposit.
- Financial Operations enters a responding TSF journal entry in BU 00005 using appropriate affiliate, Fund 63096, appropriate Dept ID and accounts 100105 and 101096 (this clears both cash accounts 101096 and 100105)

Refund of Expenditures

A refund of expenditure is a reimbursement of:

- An overpayment or payment made in error
- A payment made on behalf of another entity
- A payment for goods returned to the vendor
- A payment for goods or services never received

A refund of expenditure is processed by depositing the refund check into the bank and entering a direct journal deposit in VISION. In the direct journal accounting entries, departments must use the expenditure account, fund, DeptID and other chartfields that were used on the original transaction.

VISION allows refund of expenditures to be processed only when there are sufficient current year expenditures to offset the refund. When departments receive monies for a refund of prior year expenditures, the refund must be processed against the current year's expenditures in VISION. If there are not sufficient current year expenditures to offset the prior year refund, the system will not allow the direct journal to budget check. The system will return the budget check error "Spending authority over budget." In this case only, departments must change the expense account to revenue account 485000 Prior Year Refund of Expenditures. For more information on prior year refund of expenditures please refer to [VISION Procedure #6 Prior Year Refund of Expenditure Procedure](#).

NOTE: VISION Accounts Payable checks that are returned by the vendor or have printed and then found to be invalid **ARE NOT** considered a Refund of Expenditure. Do not deposit a VISION Accounts Payable check. Returned or invalid Accounts Payable checks processed in VISION **must be** sent to the Treasurer's Office requesting them to be voided. [VISION Procedure # 8](#) explains what to do when you receive a returned VISION Accounts Payable check,

Void Check Procedure

Void Check Procedure:

[VISION Procedure # 8: Void Check](#) establishes the criteria and procedures for voiding VISION vendor checks.

Departments are prohibited from depositing VISION vendor checks and processing them as a refund of expenditure. The erroneous depositing of a VISION vendor check obscures the audit trail in VISION by creating a record that indicates the check was issued to and cashed by the vendor; this improper handling impairs the integrity and accuracy of vendor payment reports and potentially 1099-MISC forms issued to vendors and the IRS.

CRITERIA

A check can be voided in VISION when the following two conditions exist:

1. The check was issued and recorded in the VISION financial system.
2. The department (custodian) is in possession of the original check.

A VISION vendor check shall be determined invalid and voided in VISION when there is a/an:

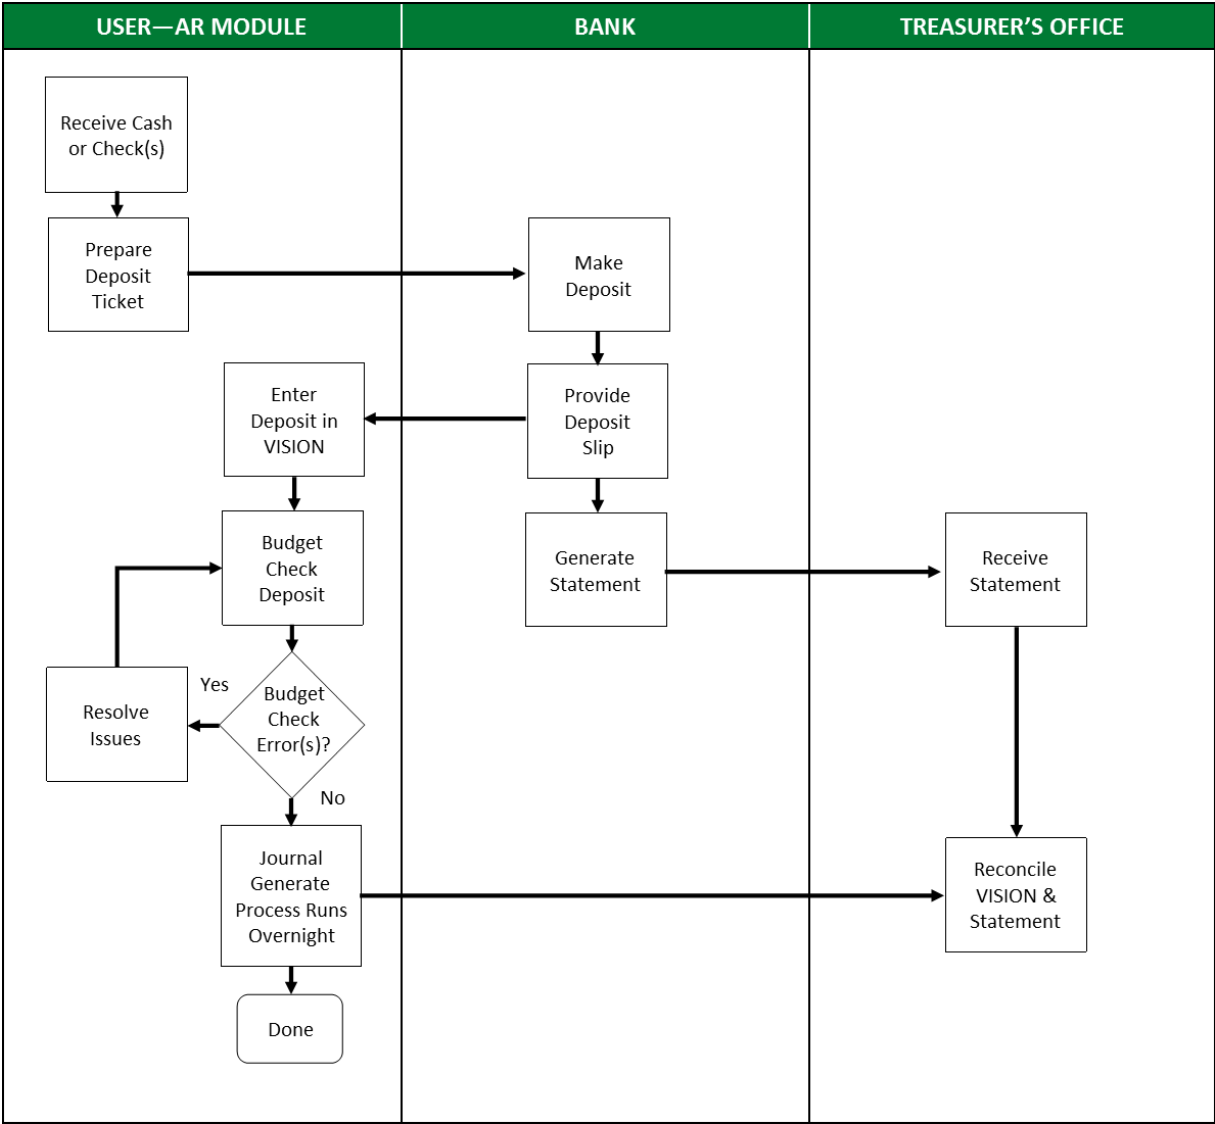

- Error in the payee
- Error in the payment amount
- Printing error or damaged/spoiled check
- Duplicate payment
- Cancellation of the payment request
- Unavailability of the goods/services being purchased
- Any other reason the check is no longer needed for its intended purpose

Note: *VISION vendor checks that are valid and not in error but are undeliverable to the vendor (e.g., unknown address) shall not be voided, and are subject to Vermont's unclaimed property laws. Contact the Office of the State Treasurer's Unclaimed Property Division for more information.*

Please contact the Office of the State Treasurer's Treasury Operations Division or the Dept. of Finance & Management's VISION Finance Support Team with any questions about this procedure.

For copies of cancelled checks or checks to pull please contact the Treasurer's Office via email at: TRE.Deposits@vermont.gov

Direct Journal Deposits Flowchart

Regular Deposit Entry Total Page/Field Descriptions

The screenshot shows the 'Regular Deposit Entry Total Page' with the following fields and callouts:

- 1**: *Accounting Date (11/30/2018)
- 2**: *Bank Code
- 3**: *Bank Account
- 4**: *Deposit Type
- 5**: Control Total Amount (0.00)
- 6**: *Count (0)
- 7**: Control Currency (USD)
- 8**: *Received (11/30/2018)

Other visible fields include: Deposit ID 1110D113018, Delete Deposit button, Control Currency, Format Currency, Rate Type, Exchange Rate (1.00000000), Control Data, *Entered (11/30/2018), Posted, Assigned (ETEST), and User (ETEST).

Buttons at the bottom: Save, Notify, Refresh, Add, Update/Display.

1. **Accounting Date** - Defaults in with the current date. Always accept the default date. Do not change. Fiscal Year end instructions may include that the accounting date may change to facilitate Fiscal Year closing
2. **Bank Code** - Clicking on the magnifying glass to the right of the field gives you a list of valid bank codes. For direct journal deposits you should always select **PEOP3** as the bank code which defaults with a description of **M&T BANK**
3. **Bank Account** - Clicking on the magnifying glass to right of field displays a list of valid values. For direct journal deposits select # **0002**
4. **Deposit Type** - Selection list available. If **PEOP3** and **0002** are selected the Deposit Type will populate with **C-Cash Checks**. If deposit is a Refund of Expenditure you should use a type **R-Refund**
5. **Control Total Amount** - This field is used to enter the total amount of the deposit
6. **Count** - This field determines how many accounting lines will be entered for the deposit that you have broken down by chartfields
7. **Control Currency** - Defaults as **USD**
8. **Received Date** - This is an important date. Enter date that bank stamps on your deposit ticket. This date is used by the Treasurer's office to reconcile bank statements

Regular Deposit Entry Payments Page/Field Descriptions

The screenshot shows the 'Payments' tab of a software interface. At the top, there are tabs for 'Totals' and 'Payments'. Below this, a header bar displays 'Unit 01110', 'Deposit ID 1110D113018', 'Date 11/30/2018', and 'Balance Not Balanced'. The main section is titled 'Payment Information' and includes fields for 'Payment Seq', 'Amount' (0.00), 'Rate Type', 'Payment Predictor', 'Payment Method', '*Payment ID', 'Currency' (USD), 'Exchange Rate' (1.00000000), '*Accounting Date' (11/30/2018), 'Journal Directly', 'Attachments (0)', and 'Range of References'. Below this is the 'Customer Information' section with fields for 'Customer ID', 'Business Unit', 'Remit From Name', 'Remit SetID', 'Corporate SetID', 'SubCust1', 'SubCust2', 'MICR ID', and 'Link MICR'. At the bottom is the 'Reference Information' section with a table for 'Qual Code', 'Reference', and 'To Reference'. The page has a 'Save' button, a 'Notify' button, a 'Refresh' button, an 'Add' button, and an 'Update/Display' button. Red circles with numbers 1 through 6 are overlaid on the image, pointing to specific fields: 1 points to '*Payment ID', 2 points to '*Accounting Date', 3 points to 'Amount', 4 points to 'Currency', 5 points to 'Journal Directly', and 6 points to the '+' button in the 'Range of References' section.

1. **Payment ID** - This is an alphanumeric field that allows you to type in a brief description to what has been deposited. It is a limited field that allows only 14 characters
2. **Accounting Date** - Defaults from the Total page
3. **Amount** - Enter dollar amount for the particular set of Chartfields
4. **Currency** - Defaults to USD
5. **Journal Directly** - Important field which needs to be selected when entering a direct journal deposit. If not selected when you go to enter the accounting entries, you will find that the line will not display to enter the accounting entries. To correct, go back to the regular deposit Find an Existing Value and select the journal Directly box and save. Now when you navigate to enter your accounting entries the line(s) will be available
6. This page is broken in three sections. To insert a new row, you need to click on the + button that is located on the Payment Information portion of the page

Direct Journal Accounting Entries Page/Field Descriptions

The screenshot shows the 'Accounting Entries' page for 'Deposit Control'. At the top, it displays 'Unit 01110', 'Deposit ID TESTA', 'Payment TESTA', and 'Seq 1'. Below this is a 'Currency Details' section showing 'Amount 1.00 USD'. The main section is 'Distribution Lines', which includes a table with columns: Distribution Sequence, *GL Unit, Speed Type, Line Amount, Currency, *Account, Fund, Dept, Program, and Class. The first row shows '1' for Distribution Sequence, '01110' for *GL Unit, 'Speed Type' for Speed Type, '-1.00' for Line Amount, 'USD' for Currency, '485000' for *Account, and empty fields for Fund, Dept, Program, and Class. Below the table is a 'Total' section showing 'Lines 1', 'Total Debits 0.00', 'Currency USD', 'Total Credits 1.00', 'Currency USD', and 'Net -1.00'. At the bottom are buttons for 'Save', 'Return to Search', 'Previous in List', 'Next in List', 'Notify', and 'Refresh'. Red callouts with numbers 1 through 9 point to the following elements: 1. *GL Unit field, 2. Speed Type button, 3. Line Amount field, 4. *Account field, 5. Fund field, 6. Dept field, 7, 8, 9. Project field (indicated by a red oval around the field).

1. **GL Unit** - Defaults with business unit
2. **Speed Type Button** - This allows you to select speed types that were created by departments which will automatically populate chartfields that are repetitive or used frequently. See pages on how to create Speed Type listed in table of contents
3. **Line Amount** - Amount applied to specific chartfields and should be entered as a negative amount (credit)
4. **Account** - Enter account number applicable to cash/checks. By clicking on the magnifying glass beside the field a list of valid values will be displayed
5. **Fund Code** - Enter associated fund. Click the magnifying glass to display a list of valid values
6. **Dept** - Enter 10-digit number or select a valid value. This is a mandatory field. Dept IDs are established under the SETID of STATE so if you are using the magnifying glass to search for a specific DeptID, enter the last four digits of your BU so you will get only the department ids for your business unit
7. **Class** - Not a mandatory field, if your department requires a class, enter or select a valid value
8. **Project** - (Use scrollbar) Not a mandatory field, if your department requires a project enter or select a valid value
9. **Affiliate** - (Use scrollbar) No data entry required

Click on **Currency Details** tab shown below:

IMMEDIATE WITHDRAWAL.

RE-ENTER GRAND TOTAL
IN SCREENED BOXES

126001000 125136 0493

Deposit ID#

This number is found on the far left of the deposit ticket. There are three sets of numbers on the bottom of each deposit ticket. Deposit # is derived as follows, first four digits are the last four numbers of your business unit, the next two digits are a location identifier, and the next four digits are sequential.

A Deposit ID number **MUST** be used in VISION to identify each deposit. The Bank sends a file to the Treasurer's Office and with that file the Treasurer's Office reconciles to what was entered in VISION. Key fields for reconciling are the deposit Id number and the total dollar amount.

Bank and Bank Accounts

- Bank Code – **PEOP3 – M&T BANK** for ALL cash/check DJ deposits
- Bank Account – **0002 - XXXXXX0493**
- Depository cash account - **101102**

Remote Deposit Capture

Deposits to be processed using remote deposit capture are entered in the M&T Bank Remote Check Deposit (RCD) system.

Checks received should be endorsed “For Deposit Only” using a deposit stamp. The deposit stamp may have additional information, including a business unit. The endorsement stamp must be placed within the endorsement area on the back of the check.

When entering a deposit in the Remote Check Deposit system a deposit slip will not be used. When a deposit is completed and submitted using RDC, a unique six-character Deposit Number will be assigned to the deposit.

The VISION Direct Journal Deposit format for RCD deposits is 11 characters – **Mbbbbnnnnnn**

- **M** = A constant that will be used at the beginning of every RCD deposit to indicate that the deposit was done using RCD
- **bbbb** = The last four digits of the Business Unit number of the Department making the deposit, e.g., 1260 indicates the Treasurer’s Office made the deposit
- **nnnnnn** = The unique six-character Deposit Number assigned by RCD

Example = M1260000001

When entering the deposit in VISION, use Bank Code: PEOP3, Bank Account 0002, and Deposit Type: C.

The VISION general ledger account for the State Depository Account is 101102.

Enter a Direct Journal Deposit

Possible situations when this function is used: Direct Journal deposits are regular deposits that are directly journaled to the general ledger (not customer related deposits).

PART I:

WorkCenter navigation: Accounts Receivable WorkCenter > Links pagelet > Payments > Regular Deposit

Navigator Menu navigation: Accounts Receivable > Payments > Online Payments > Regular Deposit

The **Regular Deposit** page displays, click on the **Add a New Value** button:

Regular Deposit

Add a New Value Find an Existing Value

*Deposit Unit 01110

*Deposit ID 11108252022

Add

1. **Deposit Unit** - Leave as default or enter business unit
2. **Deposit ID** - Enter a New Deposit ID **or** enter the correct numbering scheme. Follow instructions Auto-Numbering Deposit Change
3. Click **Add**

The **Totals** page displays:

The screenshot shows the 'Payments' tab selected. At the top, there are tabs for 'Totals' and 'Payments'. Below the tabs, the 'Unit' is 01110 and the 'Deposit ID' is 11108252022. A 'Delete Deposit' button is visible. The main form area contains several fields: '*Accounting Date' (08/25/2022), '*Bank Code' (PEOP3), '*Bank Account' (0002), and '*Deposit Type' (C). To the right, there are fields for 'Control Currency' (USD), 'Format Currency' (USD), 'Rate Type' (CRRNT), and 'Exchange Rate' (1.00000000). Below these, there are two sections: 'Control Totals' and 'Control Data'. The 'Control Totals' section shows 'Control Total Amount' (50.00) and '*Count' (2). The 'Control Data' section shows '*Received' (08/25/2022), '*Entered' (08/25/2022), 'Posted' (empty), 'Assigned' (EHOEFEL), and 'User' (EHOEFEL). At the bottom, there are buttons for 'Save', 'Notify', 'Refresh', 'Add', and 'Update/Display'.

10. Click on the **Chartfields** tab

11. Click on the **Lightning Bolt** icon to create the Cash Account side of the transaction line. Once the Cash lines are created you should verify that the depository account 101102 populates as well as the cash clearing account 101050. The cash account populates from your selection on the Total page of the regular deposit, Bank Code and Bank Account.

Four lines are generated balancing the transaction for your business unit and the treasury account business unit.

Note: You will not see the cash account on the trial balance – only 101050. Impact – as an example you will only be able to distinguish federal receipts from regular receipts by the revenue account – no longer by the cash account

12. Check the **Complete** box (located on the upper left side of page)

13. Click **Save** (bottom left of the page)

Confirm that the Journalled Total Amount and Count are now equal to the Control and Entered Total Amount and Counts, and that there is no Difference Amount or Count. If there is a difference, review the deposit and make corrections as necessary.

A Batch process (Journal Generator) will run overnight and post the deposit to General Ledger.

Direct Journal Deposit Add is Complete

Enter a Refund of Expenditure Direct Journal Deposit

Possible situations when this function is used: Direct Journal Refund of Expenditure (ROE) deposits are directly journalled to the general ledger (they are not customer related deposits). Refund of Expenditures decrease expenses due to a reimbursement. An example is personal phone call reimbursements from employees.

Note: *Whenever a refund of Expenditure is necessary, a completed [Refund form](#) must be submitted to Financial Operations to ensure the supplier receives a correct 1099 form.*

PART I:

WorkCenter navigation: Accounts Receivable WorkCenter > Links pagelet > Payments > Regular Deposit

Navigator Menu navigation: Accounts Receivable > Payments > Online Payments > Regular Deposit

The **Regular Deposit** page displays, click on the [Add a New Value](#) button:

Regular Deposit

Add a New Value Find an Existing Value

*Deposit ID

Add

1. **Deposit Unit** - Leave as default **or** enter the deposit unit
2. **Deposit ID** - Enter Deposit ID (10 digit # located at the bottom left of the deposit ticket)
3. Click [Add](#)

The **Totals** page displays:

The screenshot shows the 'Totals' page with the 'Payments' tab active. At the top, there are tabs for 'Totals' and 'Payments', with 'Payments' highlighted. Below the tabs, the 'Unit' is 01110 and the 'Deposit ID' is 11108252022B. A 'Delete Deposit' button is visible. The main form area contains several fields: '*Accounting Date' (08/25/2022), '*Bank Code' (PEOP3), '*Bank Account' (0002), and '*Deposit Type' (R). To the right, there are fields for 'Control Currency' (USD), 'Format Currency' (USD), 'Rate Type' (CRRNT), and 'Exchange Rate' (1.00000000). Below these, there are two sections: 'Control Totals' and 'Control Data'. The 'Control Totals' section has a table with columns for 'Control Total Amount' and '*Count'. The 'Control Data' section has fields for '*Received' (08/25/2022), '*Entered' (08/25/2022), 'Posted', 'Assigned' (EHOEFEL), and 'User' (EHOEFEL). At the bottom, there are buttons for 'Save', 'Notify', 'Refresh', 'Add', and 'Update/Display'. Red boxes highlight the 'Payments' tab, the '*Accounting Date', '*Bank Code', '*Bank Account', and '*Deposit Type' fields, and the 'Control Total Amount' and '*Count' fields in the 'Control Totals' table.

Three dates default in:

- **Accounting Date** - Current date defaults (*do not change*)
- **Entered Date** - Defaults as current date (*field is grayed out*)
- **Received Date** - change when necessary (*Date stamped on deposit ticket*)

4. **Bank Code** - Enter Valid Value (PEOP3)

5. **Bank Account** - Enter Bank Account (0002)

6. **Deposit Type** - R (*for Refund of Expenditure*)

Note: *If you do not select R for Refund of Expenditures and you budget check the deposit, you cannot go back in the deposit to correct. If this does happen, you need to make a note for auditing purposes. This will only affect reports if you run one that calls for a specific Deposit Type.*

7. **Control Currency** - USD Defaults in

8. **Control Total** - Enter the total you have deposited in the bank

9. **Count** - Enter the number of accounting lines you will enter in the deposit

10. Click on the **Payments** tab

The **Payments** page displays:

The screenshot shows the 'Payments' page with the following details:

- Payment Information:**
 - Payment Seq: 1
 - Amount: 10.00
 - Rate Type: CRRNT

Budget Status is now **Valid**

Budget Check a Direct Journal Deposit that is Already Marked “Complete” is Complete

Delete Direct Journal Deposits

Instructions for each stage are shown below

Possible situations when this function is used: Direct Journal deposits (not customer related) can be deleted if no lines have been budget checked.

Note: If you have budget checked any lines, you will need to contact the [VISION Helpdesk](#) to determine if the deposit can be unposted by Finance.

You must work backwards from the last stage of completion.

There are four stages, they are as follows:

- **Stage 4:** Direct Journal deposit line is Complete
- **Stage 3:** Cash Side (second side) of Direct Journal Line accounting entry has been created
- **Stage 2:** The Revenue Side (first side) of Direct Journal Line accounting entry has been created
- **Stage 1:** Only the Regular Deposit portion has been entered; no accounting lines have been created

STAGE 4: Direct Journal deposit line is Complete

WorkCenter navigation: Accounts Receivable WorkCenter > Links Pagelet - Payments > Modify Accounting Entries

4. Click the **Delete Row** button  (use the scroll bar to get to the right side of page)

The following warning Message will open:

A dialog box titled "Delete Confirmation" with a light blue header. The main text reads: "Delete current/selected rows from this page? The delete will occur when the transaction is saved." At the bottom, there are two buttons: "OK" and "Cancel". The "OK" button is highlighted with a red rectangular border.

- Click **OK** (this deletes the chartfields)

A screenshot of the "Accounting Entries" form. The form has tabs for "Accounting Entries" and "Deposit Control". It displays fields for "Unit" (01110), "Deposit ID" (1110622001), "Payment" (INS REIMB), and "Seq" (1). Below these is a "Currency Details" section with "Amount" (25.00 USD) and a currency icon. There is a "Complete" checkbox and an "Entry Event" field. A "Budget Status" section shows a "Total" line with "Lines" (0), "Total Debits" (0.00), "Currency" (USD), "Total Credits" (0.00), "Currency" (USD), and "Net" (0.00). At the bottom, there are buttons for "Save", "Return to Search", "Notify", and "Refresh". The "Save" button is highlighted with a red rectangular border.

- Click **Save**

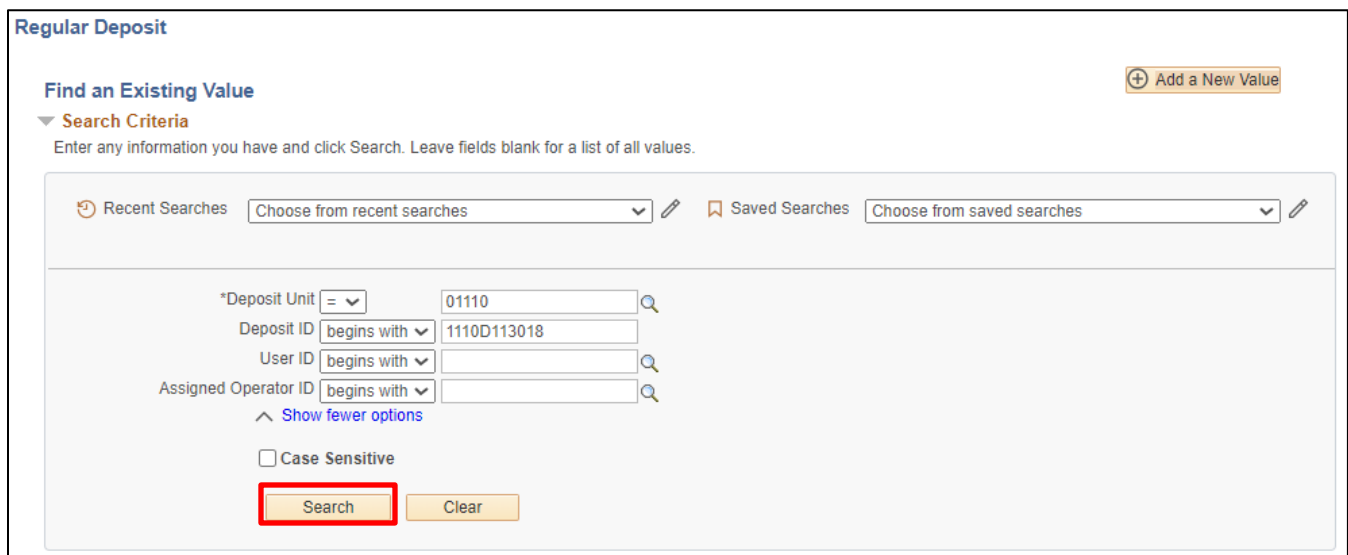

Note: If you do not save, the revenue line will re-appear.

STAGE 1: Only the Regular Deposit portion has been entered; **no accounting lines have been created**

WorkCenter navigation: Accounts Receivable WorkCenter > Links Pagelet > Payments > Regular Deposit

Navigator Menu navigation: Accounts Receivable > Payments > Online Payments > Regular Deposit

The **Regular Deposit Entry** page displays:

A screenshot of the "Regular Deposit" form. It has a header "Regular Deposit" and a button "Add a New Value". Below is a "Find an Existing Value" section with a "Search Criteria" dropdown. A text prompt says: "Enter any information you have and click Search. Leave fields blank for a list of all values." There are two search filters: "Recent Searches" and "Saved Searches", each with a dropdown menu. Below these are four input fields: "*Deposit Unit" (with a dropdown menu), "Deposit ID" (with a "begins with" dropdown), "User ID" (with a "begins with" dropdown), and "Assigned Operator ID" (with a "begins with" dropdown). Each field has a magnifying glass icon. Below the input fields is a link "Show fewer options" and a checkbox "Case Sensitive". At the bottom, there are "Search" and "Clear" buttons. The "Search" button is highlighted with a red rectangular border.

- Deposit Unit** - Leave as default **or** enter the appropriate Deposit Unit
- Deposit ID** - Enter appropriate Deposit ID
- Click **Search**

The **Totals** page of the deposit displays:

- Click **Delete Deposit** (top right section of page)

The following Message opens:

- Click **Yes** - The Deposit is deleted. Note that the Delete Deposit Button is grayed out and no longer available to select. If you were to try to view this deposit again, under Find an Existing Value, you will get the message *"No matching values were found."* See below:

Delete Direct Journal Four Stages is Complete

Direct Journal Deposits - February 2024

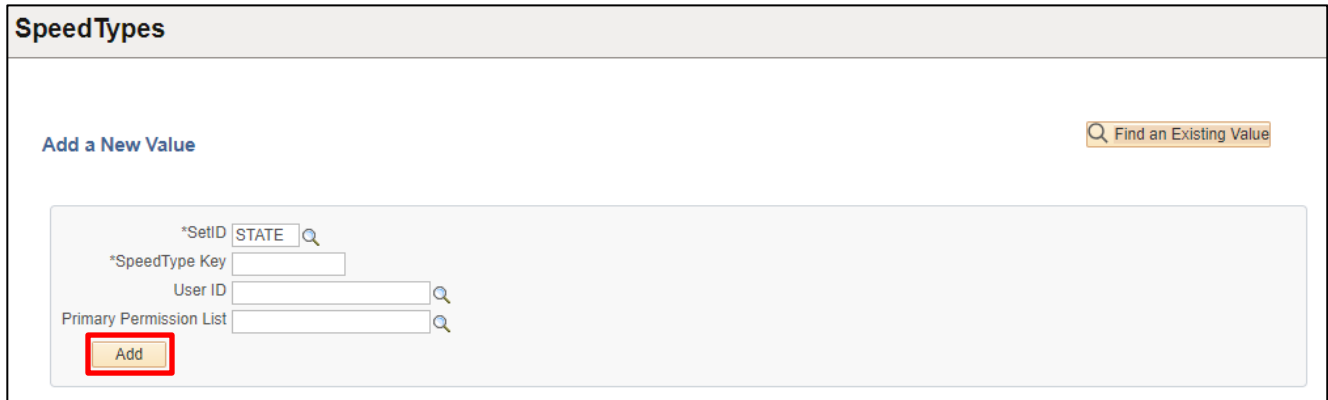

Page 50 of 91

Entering a Speed Type

Possible situations when this function is used: This function will default chartfield information associated with the specified SpeedType key entered. A SpeedType will save time when entering transactions within Deposits and Journals. You can create SpeedTypes, maintain SpeedTypes, but you cannot delete or inactivate them.

Navigator Menu navigation: Set Up Financials/ Supply Chain > Common Definitions > Design Chartfields > Define Value > SpeedTypes

The **SpeedTypes** page displays, click on the **Add a New Value** button:

The screenshot shows the 'SpeedTypes' page header. Below the header, there is a section titled 'Add a New Value' on the left and a search button 'Find an Existing Value' on the right. The main form area contains four input fields: '*SetID' with 'STATE' entered and a search icon, '*SpeedType Key' (empty), 'User ID' (empty) with a search icon, and 'Primary Permission List' (empty) with a search icon. At the bottom left of the form is a red-bordered 'Add' button.

1. **Set ID** - Enter Business Unit (Do not create SpeedTypes under the SetID of STATE)
2. **SpeedType Key** - Enter new (unique) SpeedType Key
3. **User ID** - Enter your User ID or UserId left blank will make the SpeedType universal

Note: It is not suggested to create a SpeedType of UNIVERSAL. Universal SpeedType once created can be used by everyone. The downside is that someone would need to monitor, update/maintain to assure that the correct Chartfields are populating. To make a SpeedType universal you leave the User ID field blank.

4. **Primary Permission List** - Leave blank
5. Click **Add**

The **SpeedType** page displays:

The screenshot shows a web form titled "SpeedType". At the top, it displays "SetID 01110" and "SpeedType Key EXAMPLE1". On the right, there is a "Publish Data" checkbox and a "User ID ETEST" label. Below this, "Type of SpeedType" is set to "One User". A "Description" field is present. A list of chartfields follows: Account, Fund Code, Department, Program Code, Class Field, Project, Affiliate, Currency Code, and Statistics Code, each with an input field and a search icon. At the bottom, there are three buttons: "Save", "Notify", and "Refresh".

6. **Enter Description** - Enter SpeedType description

7. **Fill in Desired Chartfields** - Fill in as little or as many chartfields for the specific SpeedType; it can be as few as one chartfield (such as an account) or all chartfields, depending on the purpose of the SpeedType.

8. Click **Save**

The **SpeedType** is saved. It is now available when entering transactions such as a deposit, or journal entry.

Entering a SpeedType is Complete

Update an Existing SpeedType

Possible situations when this function is used: Existing SpeedTypes cannot be deleted; however, they can be updated as necessary.

Navigator Menu navigation: Set Up Financials/ Supply Chain > Common Definitions > Design Chartfields > Define Value > SpeedTypes

The **SpeedTypes** page displays:

The screenshot shows the 'SpeedTypes' page interface. At the top, there's a header 'SpeedTypes'. Below it, a section 'Find an Existing Value' contains a 'Search Criteria' dropdown and an 'Add a New Value' button. A instruction text says 'Enter any information you have and click Search. Leave fields blank for a list of all values.' Below this is a search bar with 'Recent Searches' and 'Saved Searches' dropdowns. The main search area contains several criteria: '*SetID' with a dropdown set to '=', a text input '01110', and a magnifying glass icon; 'SpeedType Key' with a dropdown set to 'begins with', a text input 'EXAMPLE1', and a magnifying glass icon; 'User ID' with a dropdown set to 'begins with', an empty text input, and a magnifying glass icon; 'Primary Permission List' with a dropdown set to 'begins with', an empty text input, and a magnifying glass icon; and '*Type of SpeedType' with a dropdown set to '=', a dropdown menu showing 'One User', and a magnifying glass icon. Below these is a link 'Show fewer options' and a checkbox 'Case Sensitive'. At the bottom, there are two buttons: 'Search' (highlighted with a red rectangle) and 'Clear'.

1. **Set ID** - Enter Business Unit
2. **SpeedType Key** - Enter an existing SpeedType Key
3. **User ID** - Enter your User ID
4. **Primary Permission List** - Leave blank
5. **Type of SpeedType** - Equal to One User
6. Click **Search**

The **SpeedType** page displays:

The screenshot shows the 'SpeedType' form with the following details:

- SetID: 01110
- SpeedType Key: EXAMPLE1
- Type of SpeedType: One User
- User ID: ETEST
- Description: Deposit Chartfields
- Account: (empty)
- Fund Code: 59300 (Financial Management Fund)
- Department: 1115001000 (Finance & Mgmt - FinOps)
- Program Code: (empty)
- Class Field: (empty)
- Project: (empty)
- Affiliate: (empty)
- Currency Code: (empty)
- Statistics Code: (empty)

Buttons at the bottom: Save, Return to Search, Notify, Refresh.

7. Make desired **Chartfield** changes - You can fill in as many chartfields as desired for the specific SpeedType; it can be as few as one chartfield (such as an account) or all chartfields, depending on the purpose of the SpeedType

Note: In this example an Account is being added to an existing SpeedType that had only Fund and Department previously.

This screenshot is identical to the previous one, but with the 'Account' field now containing the value '410020'. The 'Save' button at the bottom left is highlighted with a red rectangular box.

8. Click **Save**

The SpeedType is saved with an account entered. It is now available to use when entering transactions such as deposits, or journals.

Update SpeedType is Complete

Enter a Direct Journal Deposit Using a SpeedType

Possible situations when this function is used: Direct Journal deposits are regular deposits that are directly journalled to the general ledger (not related to customer deposits).

The SpeedType function will default chartfield information (fund, dept ID, etc.)

WorkCenter navigation: Accounts Receivable WorkCenter > Links Pagelet > Payments > Regular Deposit

Navigator Menu navigation: Accounts Receivable > Payments > Online Payments > Regular Deposit

The **Regular Deposit Entry** page displays, click on the **Add a New Value** button:

Regular Deposit

Add a New Value Find an Existing Value

*Deposit Unit 01110

*Deposit ID

Add

1. **Deposit Unit** - Leave as default **or** enter Deposit Unit
2. **Deposit ID** - Enter a Deposit ID
3. Click **Add**

The **Totals** page displays:

The screenshot shows the 'Totals' page of a software application. The 'Payments' tab is selected and highlighted with a red box. The page displays the following information:

- Unit:** 01110
- Deposit ID:** 2120622005
- Delete Deposit** button
- Accounting Date:** 12/07/2018 (highlighted with a red box)
- Bank Code:** PEOP3 (highlighted with a red box)
- Bank Account:** 0002 (highlighted with a red box)
- Deposit Type:** C (highlighted with a red box)
- Control Currency:** USD
- Format Currency:** USD
- Rate Type:**
- Exchange Rate:** 1.00000000
- Control Totals:**
 - Control Total Amount:** 25.00
 - *Count:** 1
 - Entered Total Amount:** 0.00
 - Difference Amount:** 0.00
 - Posted Total Amount:** 0.00
 - Journalled Total Amount:** 0.00
- Control Data:**
 - *Received:** 12/07/2018
 - *Entered:** 12/07/2018
 - Posted:**
 - Assigned:** E TEST
 - User:** E TEST

At the bottom of the page, there are buttons for **Save**, **Notify**, **Refresh**, **Add**, and **Update/Display**.

Three dates default in:

- **Accounting Date** - Current date defaults (do not change)
 - **Entered date** - Current date defaults (field is grayed out)
 - **Received date** - Current date defaults, change when necessary (*should be equal to bank deposit date*)
4. **Bank Code** - Enter Bank Code (PEOP3)
 5. **Bank Account** - Enter Bank Account (0002)
 6. **Deposit Type** - Enter Deposit Type
 7. **Control Currency** - USD defaults
 8. **Control Total** - Enter Control Total (This is the total you have deposited in the bank)
 9. **Count** - Enter Count (This is the number of payment lines you will enter in the deposit)
 10. Click on the **Payments** tab

The **Payments** page displays:

11. **Payment ID** - Enter appropriate Payment ID for payment line

12. **Amount** - Enter appropriate Amount for payment line

13. Uncheck the **Payment Predictor** box

14. Check the **Journal Directly** box

15. Click **Save**

NOTE: The deposit is Balanced (see the upper right corner of the Payments Tab) If not balanced click on the Totals tab and check the control amount and entered amount they should be the same. If the control amount is incorrect change it to correct amount. If the entered amount is wrong, click on the payment tab and verify that the line amount(s) were entered correctly. Then refresh and save the page to accept changes.

16. Click on the **Totals** tab

The **Totals** page displays:

The screenshot shows the 'Totals' page for a deposit. The 'Control Totals' section is highlighted with a green box. It contains the following data:

Control Totals	Amount	Count
Control Total Amount	25.00	1
Entered Total Amount	25.00	1
Difference Amount	0.00	0
Posted Total Amount	0.00	0
Journalled Total Amount	0.00	0

The Control Total Amount, Entered Total Amount, Entered Count and Control Count are the same. There should be no Difference in Amount or Count. If there is, review totals and payment lines to find the difference and correct it.

WorkCenter navigation: Accounts Receivable WorkCenter > Links Pagelet > Payments > Create Accounting Entries

Navigator Menu navigation: Accounts Receivable > Payments > Direct Journal Payments > Create Accounting Entries

The **Direct Journal Entry** page displays:

The screenshot shows the 'Create Accounting Entries' page. The 'Find an Existing Value' section is highlighted. The search criteria are as follows:

Field	Value
*Deposit Unit	01110
Deposit ID	begins with 2120622005

6. Select the **SpeedType Key** by clicking on it, for this example: EXAMPLE1

The **Accounting Entries** page displays with the chartfield info associated with the SpeedType Key selected already defaulted in:

Distribution Sequence	*GL Unit	SpeedType Key	Line Amount	Currency	*Account	Fund	Dept	Program	Class
1	01110	EXAMPLE		USD	410020	59300	1115001000		
Total									
Lines	0	Total Debits	0.000	Currency	Total Credits	0.000	Currency	Net	0.000

Note: Even though the Fund and Deptid are populated from the SpeedType they can be overridden.

Distribution Sequence	*GL Unit	SpeedType Key	Line Amount	Currency	*Account	Fund	Dept	Program	Class
1	01110	EXAMPLE	-25.00	USD	410020	59300	1115001000		

7. Enter any remaining appropriate chartfield information

8. **Line Amount** - Enter Amount for first line

Note: The line amount must use the opposite sign of the payment. If the payment is a positive amount, then the line amount must be negative.

9. Click on the **Lightning Bolt** icon - This creates the Cash Line Side for the transaction line

Cash lines are created

Confirm that the Journalled Total Amount and Count are now equal to the Control and Entered Total Amount and Counts, and that there is no Difference Amount or Count. If there is a difference, review the deposit and make corrections as necessary.

Enter Direct Journal Deposit Using SpeedType is Complete

Run the Process to Budget Check Direct Journal Deposits

Possible situations when this function is used: You can run the process to budget check direct journal deposits so that each line does not have to be budget checked individually. This process is helpful if you have a lot of direct journal deposits to budget check and/or direct journal deposits with multiple lines. Each line of the deposit needs to be in **Complete** status before you run this process.

Important Note: *This process is run by Business Unit. You will need to be aware of additional deposits that other users may have entered and may not want budget checked.*

For this scenario we are going to run the process for Deposit ID 11106220005 which is in the Complete stage and the Budget Status is blank:

			Line <input type="text" value="10"/> <input type="button" value="⬇"/> <input type="button" value="⬆"/>

The Budget Status is now valid - The journal is ready to Post the next time the overnight batch process Journal Generator runs.

Note: For more information on entering journal entries view the [General Ledger Manual](#) on our web site.

Correcting Journal Entry for a Posted Direct Journal is Complete

Inquiring on a Budget Check Error for a Direct Journal Deposit

Possible situations when this function is used: Accounting entries are created on the deposit and complete box has been selected and you have saved.

Note: When the above situation is, true; The budget check icon will be available and by clicking on it you received a budget status of error.

See example below:

The screenshot shows the 'Accounting Entries' tab in the 'Deposit Control' window. The 'Currency Details' section shows an amount of 50.00 USD. A red box highlights a magnifying glass icon next to the amount. Below this, the 'Budget Status' is 'Error'. The 'Distribution Lines' table shows two lines: Line 1 with a debit of 50.00 USD to account 520000, and Line 2 with a credit of 50.00 USD to account 101102. The 'Total' section shows a net of 0.00. At the bottom, there are buttons for 'Save', 'Return to Search', 'Notify', and 'Refresh'.

Distribution Sequence	GL Unit	Line Amount	Currency	Account	Fund	Dept	Program	Class	Project
1	1 01110	-50.00	USD	520000	20105	1110003000			
2	2 00005	50.00	USD	101102	20105	1110003000			

Lines	Total Debits	Currency	Total Credits	Currency	Net
4	100.00	USD	100.00	USD	0.00

1. Click on the **Budget Check Options** icon

The **Commitment Control** page displays:

The screenshot shows the 'Commitment Control' window. The 'Commitment Control Details' section displays the following information: Source Transaction Type: Miscellaneous Payment; Budget Checking Header Status: Error in Budget Check; Commitment Control Amount Type: Actuals, Recognize and Collect; Commitment Control Tran ID: 0026004311; Commitment Control Tran Date: 12/04/2018. There is an 'Override Transaction' checkbox. Below this, there are buttons for 'Budget Check', 'Go to Transaction Exceptions' (highlighted with a red box), 'Go To Activity Log', 'OK', 'Cancel', and 'Refresh'.

2. Click the **Go to Transaction Exceptions** link

The **Misc. Payment Exceptions** page displays:

Misc. Payment Exceptions | Line Exceptions

Deposit Unit 01110 | Deposit ID 2120120418 | Payment Sequence 1

*Exception Type Error | ☐ Override Transaction | ☐ More Budgets Exist

Maximum Rows 100 | Search | Advanced Budget Criteria

Budgets with Exceptions | Personalize | Find | View All | First | 1-2 of 2 | Last

	Details	Business Unit	Ledger Group	Exception	More Detail	Override Budget	Transfer
1		01110	APPROP	No Budget Exists	More Detail	<input type="checkbox"/>	Go To ...
2		01110	ORG	No Budget Exists	More Detail	<input type="checkbox"/>	Go To ...

Save | Return to Search | Notify

In this example the budget check error is referring to **No Budgets Exists**. Before this deposit can post you would need to either add a budget or change the chartfield(s) you are using that have a budget.

For more information on Budget Check Exceptions Errors view the [Commitment Control Manual](#). There are several other messages that can occur if you are uncertain of the message call the VISION Finance Support Team @ 828-6700 Option 2, or send an e-mail VISION.FinHelpdesk@vermont.gov

Below is the navigation to check for Budget Check errors through Commitment Control:

WorkCenter navigation: Accounts Receivable WorkCenter > Links Pagelet > Payments-Review Budget Check Exceptions > Direct Journal Budget Exceptions

Navigator Menu navigation: Commitment Control > Review Budget Check Exceptions > Revenues > Direct Journal

The **Direct Journal** page displays:

Report - Deposit Control by Entry Date

Situations when this function is used: Lists detailed information for deposits. Report can be run at any time.

WorkCenter navigation: Accounts Receivable WorkCenter > Reports/Queries tab > Reports/Processes pagelet > Payments > Deposit Control Report

Navigation: Accounts Receivable > Payments > Reports > Deposit Control by Entry Date

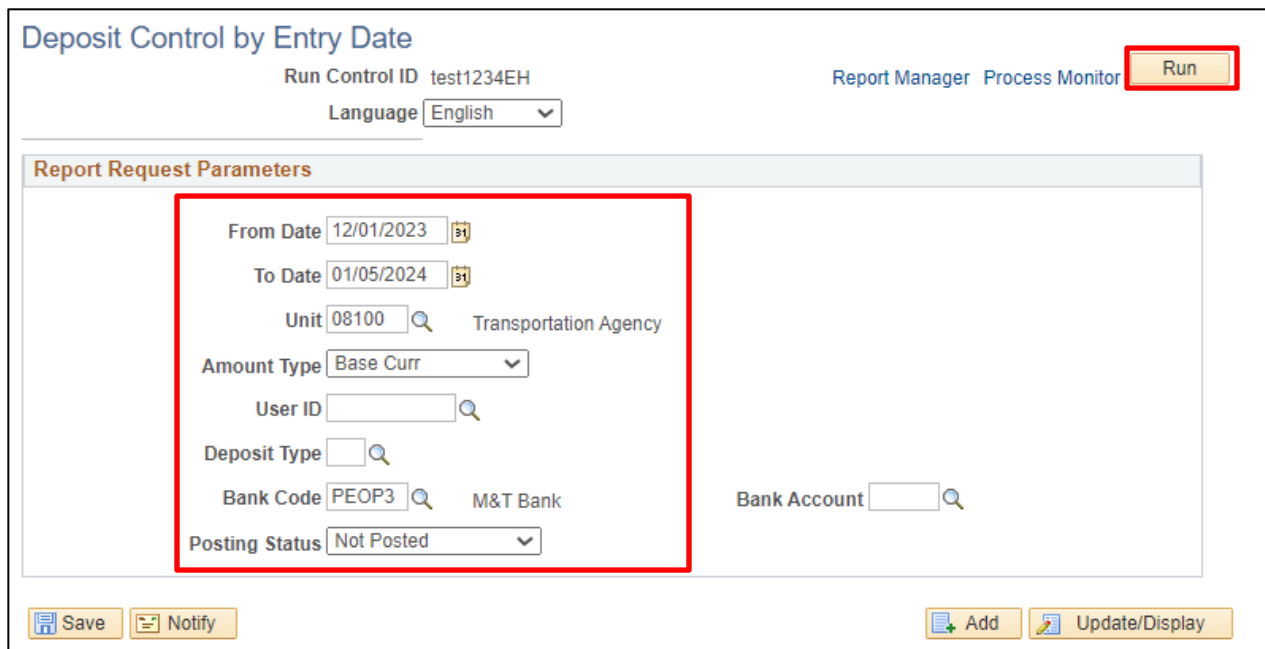

The **Deposit Control by Entry Date** page displays, click on the **Add a New Value** button:

The screenshot shows the 'Deposit Control by Entry Date' page. At the top left, there is a link 'Add a New Value'. At the top right, there is a search button 'Find an Existing Value'. Below these, there is a text input field labeled '*Run Control ID' and a red-bordered button labeled 'Add'.

1. **Run Control ID** - Name the run control something that makes sense to you. It must be a single parameter, so link multiple words with an underscore. Example: (Deposit_Control)
2. Click **Add**

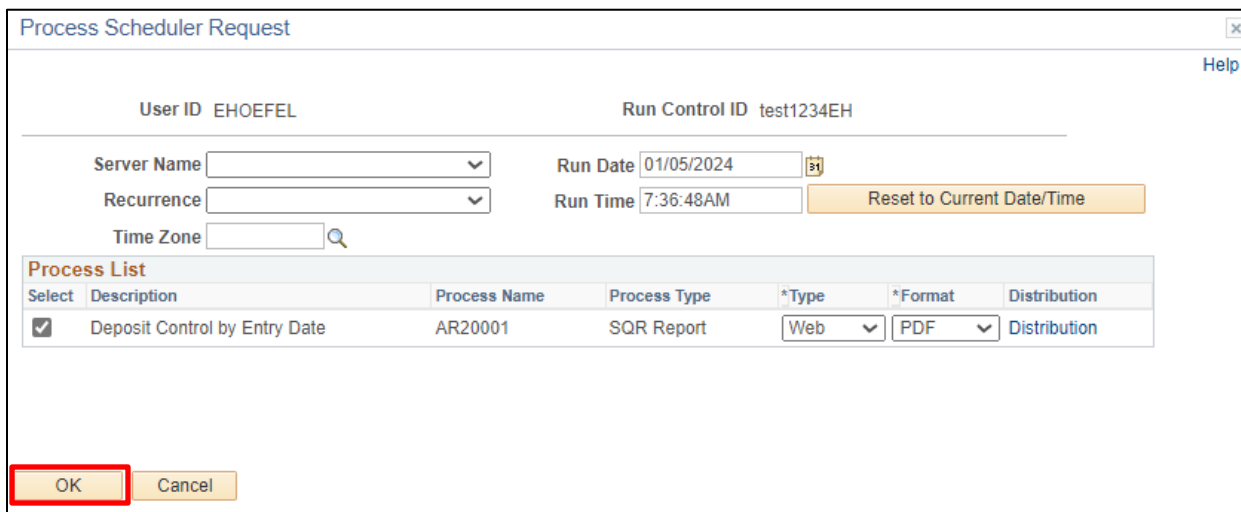

The run control for **Deposit Control by Entry Date** page displays:

The screenshot shows the 'Deposit Control by Entry Date' page with the 'Run' button highlighted. The page displays the 'Run Control ID' as 'test1234EH' and the 'Language' as 'English'. Below this, there is a section titled 'Report Request Parameters' which is highlighted with a red box. This section contains the following fields: 'From Date' (12/01/2023), 'To Date' (01/05/2024), 'Unit' (08100), 'Amount Type' (Base Curr), 'User ID' (empty), 'Deposit Type' (empty), 'Bank Code' (PEOP3), 'Bank Account' (empty), and 'Posting Status' (Not Posted). At the bottom of the page, there are buttons for 'Save', 'Notify', 'Add', and 'Update/Display'.

3. **From Date** - Enter Beginning Date
4. **To Date** - Enter Ending Date
5. **Unit** - Accept default BU or enter valid value
6. **Amount Type** - Accept default of Base Curr
7. **User ID** - Enter valid User ID or leave blank
8. **Deposit Type** - Enter or select valid value or leave blank
9. **Bank Code** - Enter or select valid value or leave blank
10. **Posting Status** - Accept default or select valid value
11. Click **Run**

The **Process Scheduler Request** window opens:
