Navigating to Transactions Pending Review and Approval

Approvers are responsible for reviewing expense transactions routed to them for approval. Approvers can see expense transactions ready for review and approval by either using their Worklist or by navigating to the Approve Transactions page. The Worklist and Approve Transactions pages can be accessed by navigating through the menu or by selecting the EX tile on the Home page.

Note: If there is not an Expense Coordinator in the approval pool, an expense report will route back to the supervisor that just approved the report. The Expense Sheet Exceptions page displays. The Exception column describes why the expense report has a Budget Status of ‘Error in Budget Check’.

Common exceptions include: ‘No Budget Exists’ or ‘Exceeds Budget Tolerance’.

For this particular expense report, the exception is ‘No Budget Exists’. This exception can relate to a few scenarios:

1. There was no budget journal entered for the Business Unit, Account, Fund and Dept combination used on the expense report.
2. The accounting details are missing a required field. This scenario should rarely occur since combination edits requires a Fund and Dept on all expense transactions.

Click the **Line ChartFields** tab.

The ChartFields for the distribution line in error display. Review the ChartField information. Verify the required Account, Fund and Dept ChartFields are defined. In this scenario the Dept is incorrect for the GL Business Unit and a budget was not defined for the GL Business Unit, Account, Fund and Dept combination.
