Revisions to Manual

January 2019

- Manual written
Completing a ChartField Request Form for an Account Code

Situations where this form is used: When you need to add, update, or inactivate an Account Code.

WorkCenter navigation: General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request or
Navigator Menu navigation: Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The Add a New Value page opens:

Request ID defaults to NEXT
SetID enter STATE
Field Name select ACCOUNT from the list of options
Field Action select from the drop-down menu
  - Options are Add or Update
Field Value enter the value you want to add or update (6 characters)
  - Finance and Management reserves the right to change the value to comply with VISION’s numbering convention

Click Add
The **Account ChartField Request** page opens:

- **Telephone** – Enter the telephone number for the contact person
- **Business Unit** – Enter the business unit for approval routing purposes
- **Control Account** – Leave unchecked
- **Statistical Account** – Leave unchecked
- **Effective Date** – Enter the effective date for the chartfield change
- **Status** – Select ‘Active’ or ‘Inactive’ as appropriate
- **Monetary Account Type** – Select the appropriate account type from the drop-down menu
- **Description** – Enter a description (up to 30 characters)
**Short Description** – Enter a short description (up to 10 characters)

**Long Description** – Click the **Long Description** link – this is an optional field where you can add any additional information about the Account Code that the requestor believes is important, for example a statute reference, or full name that can’t fit in the Description box due to the limit of 30 characters.

**Request Comments** – Expand the **Request Comments** box – this is an optional field to add any relevant comments.

The **Attachments** link - – this is an optional field used to attach relevant files to the request. See exercise on page 41 for instructions on adding an attachment to a chartfield request.
Answer the four questions and click Save:

The Trees box is only used by VISION Financial Operations, no entry or selections should be made under the Trees box.

Your request has been assigned a Request ID number:
Select **Submit for Approval** from the **Request Action** drop-down menu and click **Go**:

![Submit for Approval screenshot]

Click on the **View Approval Flow** link to see approval routing:

![View Approval Flow screenshot]
The Approval Flow box opens, click the Multiple Approvers link to see who can approve your request:
Completing a ChartField Request Form for a Class Code

**Situations where this form is used:** When you need to add, update, or inactivate a Class Code.

**WorkCenter navigation:** General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request or

**Navigator Menu navigation:** Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The **Add a New Value** page opens:

![ChartField Request Form](chartfield_request_form.png)

- **Request ID** defaults to NEXT
- **SetID** enter STATE
- **Field Name** select CLASS_FLD from the list of options
- **Field Action** select from the drop-down menu
  - Options are Add or Update
- **Field Value** enter the value you want to add or update (5 characters)
  - Finance and Management reserves the right to change the value to comply with VISION’s numbering convention

Click **Add**
The **Class Code ChartField Request** page opens:

- **Telephone** – Enter the telephone number for the contact person
- **Business Unit** – Enter the business unit for approval routing purposes
- **Effective Date** – Enter the effective date for the chartfield
- **Status** – Select ‘Active’ or ‘Inactive’ as appropriate
  
  Requests to Inactivate a Project ID should only apply if the Project code is not currently being used in the Asset Module. Run Query: VT_AM_ASSET_LIST to verify that the Project_ID is not associated with an Asset because the Depreciation Process will fail if the Chartfield in inactivated.

- **Description** – Enter a description (up to 30 characters)
- **Short Description** – Enter a short description (up to 10 characters)
- **Long Description** – Click the Long Description link – this is an optional field where you can add any additional information about the Class Code that the requestor believes is important, for example a full description of the purpose for the code.
**Request Comments** – Expand the **Request Comments** box – this is an optional field to add any relevant comments.

The **Attachments** link – this is an optional field used to attach relevant files to the request. See exercise on page 41 for instructions on adding an attachment to a chartfield request.

Answer the three questions and click **Save**:
The **Trees** box is only used by VISION Financial Operations, **no entry or selections** should be made under the Trees box.

Your request has been assigned a **Request ID** number:

![Request Details](image)

Select **Submit for Approval** from the **Request Action** drop-down menu and click **Go**:

Completing a ChartField Request Form for a Dept ID

Situations where this form is used: When you need to add, update, or inactivate a Dept ID.

WorkCenter navigation: General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request

Navigator Menu navigation: Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The Add a New Value page opens:

Request ID defaults to NEXT
SetID enter STATE
Field Name select DEPTID from the list of options
Field Action select from the drop-down menu
  - Options are Add or Update
Field Value enter the value you want to add or update (10 characters)
  - Finance and Management reserves the right to change the value to comply with VISION’s numbering convention

Click Add
The **DEPT ID ChartField Request** page opens:

**Telephone** – Enter the telephone number for the contact person

**Business Unit** – Enter the business unit for approval routing purposes

**Effective Date** – Enter the effective date for the chartfield

**Status** – Select ‘Active’ or ‘Inactive’ as appropriate

Requests to Inactivate a Project ID should only apply if the Project code is not currently being used in the Asset Module. Run Query: VT_AM_ASSET_LIST to verify that the Project_ID is not associated with an Asset because the Depreciation Process will fail if the Chartfield is inactivated.

**Description** – Enter a description (up to 30 characters)

**Short Description** – Enter a short description (up to 10 characters)
**Long Description** – Click the Long Description link – this is an optional field where you can add any additional information about the Dept ID that the requestor believes is important, for example a full description of the purpose for the Dept ID.

**Attributes** – Leave blank - only used by VISION Financial Operations

**Dept ID Level** – Select ‘Approp’, ‘Detail’, or ‘ORG’

**Detail Dept ID Roll-up** – Enter the roll-up Dept ID, if “Approp’ is selected for the level, the roll-up Dept ID should be the same as the requested Dept ID

![Business Justification](image)

**Request Comments** – Expand the Request Comments box – this is an optional field to add any relevant comments.

![Request Comments](image)

The Attachments link - – this is an optional field used to attach relevant files to the request. See exercise on page 41 for instructions on adding an attachment to a chartfield request.
Answer the four questions and click **Save**:

Completing a ChartField Request Form for a Fund Code

**Situations where this form is used:** When you need to add, modify, or inactivate a Fund Code

**WorkCenter navigation:** General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request or

**Navigator Menu navigation:** Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The **Add a New Value** page opens:

![ChartField Request Form](image)

- **Request ID** defaults to NEXT
- **SetID** enter STATE
- **Field Name** select FUND_CODE from the list of options
- **Field Action** select from the drop-down menu
  - Options are Add or Update
- **Field Value** enter the value you want to add or update (5 characters)
  - Finance and Management reserves the right to change the value to comply with VISION’s numbering convention

Click **Add**
The Fund Code ChartField Request page opens:

**Telephone** – Enter the telephone number for the contact person

**Business Unit** – Enter the business unit for approval routing purposes

**Effective Date** – Enter the effective date for the chartfield

**Status** – Select ‘Active’ or ‘Inactive’ as appropriate

Requests to Inactivate a Project ID should only apply if the Project code is not currently being used in the Asset Module. Run Query: VT_AM_ASSET_LIST to verify that the Project_ID is not associated with an Asset because the Depreciation Process will fail if the Chartfield in inactivated.

**Description** – Enter a description (up to 30 characters)

**Short Description** – Enter a short description (up to 10 characters)
Long Description – Click the long Description link – this is an optional field where you can add any additional information about the Fund Code that the requestor believes is important, for example a statute reference, or full name that can’t fit in the Description box due to the limit of 30 characters.

Attributes – Leave blank - only used by VISION Financial Operations

Request Comments – Expand the Request Comments box – this is an optional field to add any relevant comments.

The Attachments link - – this is an optional field used to attach relevant files to the request. See exercise on page 41 for instructions on adding an attachment to a chartfield request.
Answer the six questions and click **Save:**

- **Q1.** Is there a Statute or Act creating or changing this Fund? Please provide the Statute or Act, if applicable.
- **Q2.** What authorizes the budget for this fund? (Appropriation Act, Excess Receipts, Demand Driven)
- **Q3.** What are the authorized uses for the Fund?
- **Q4.** What are the revenue sources for the Fund?
- **Q5.** Are new Payroll ChartField Combinations required? If yes, attach spreadsheet with new chartField combinations
- **Q6.** Any additional comments about this request?

The **Trees** box is only used by VISION Financial Operations, **no entry or selections** should be made under the Trees box.
Your request has been assigned a **Request ID** number:

Select **Submit for Approval** from the **Request Action** drop-down menu and click **Go**:
Click on the **View Approval Flow** link to see approval routing:

The **Approval Flow** box opens, click the **Multiple Approvers** link to see who can approve your request:

Completing a ChartField Request Form for a Program Code

**Situations where this form is used:** When you need to add, update, or inactivate a Program Code

**WorkCenter navigation:** General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request or **Navigator Menu navigation:** Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The **Add a New Value** page opens:

![ChartField Request Form](image)

- **Request ID** defaults to NEXT
- **SetID** enter STATE
- **Field Name** select PROGRAM_CODE from the list of options
- **Field Action** select from the drop-down menu
  - Options are Add or Update
- **Field Value** enter the value you want to add or update (5 characters)
  - Finance and Management reserves the right to change the value to comply with VISION’s numbering convention

Click **Add**
The **Program Code ChartField Request** page opens:

- **Telephone** – Enter the telephone number for the contact person
- **Business Unit** – Enter the business unit for approval routing purposes
- **Effective Date** – Enter the effective date for the chartfield
- **Status** – Select ‘Active’ or ‘Inactive’ as appropriate

  Requests to Inactivate a Project ID should only apply if the Project code is not currently being used in the Asset Module. Run Query: VT_AM_ASSET_LIST to verify that the Project_ID is not associated with an Asset because the Depreciation Process will fail if the Chartfield is inactivated.

- **Description** – Enter a description (up to 30 characters)
- **Short Description** – Enter a short description (up to 10 characters)
**Long Description** – Click the *Long Description* link – this is an optional field where you can add any additional information about the Program Code that the requestor believes is important, for example a full description of the purpose for the code.

**Request Comments** – Expand the *Request Comments* box – this is an optional field to add any relevant comments.

The *Attachments* link - – this is an optional field used to attach relevant files to the request. See exercise on page 41 for instructions on adding an attachment to a chartfield request.

Answer the three questions below:

**Questions 3** – Requires a response for all AHS departments for all program code chartfield requests. The question response field should indicate the program code was reviewed and determined to either 1) not require an AHS Program Report tree node, or 2) Does require an AHS Program Report Tree Node for CMIA Draw Queries. If the program code does need to be on the AHS Program Report Tree, the requestor should indicate the Tree Node the Program Code should be inserted below. For nodes with a child node, the child node should be identified when setting up the new program code.

**Sample Response AHS:** *Question 3. Answer* – The program code should be added under child node VR Section 110.

Adding an Attachment to a ChartField Request

**When to use:** Adding an attachment while creating a chartfield request

Click the **Attachments** link - – this is an optional field used to attach relevant files to the request.

The **Request Attachments** page opens, Click the **Add Attachment** button:

Click **Browse**, select your document and click **Upload**:
Add a **Description** and click **OK**:

![Request Attachments]

The **Attachment** counter now shows 1 attachment:

![Core Information and Business Justification]
Department Level Approval of a ChartField Request Form

Situations where this is used: If a department has requested to have users set up in VISION as department level approvers, after a Chartfield Request Form is submitted by the requestor, VISION workflow routes it to a designated department Approver or a group of designated Approvers for review and approval. After the department level of approval, the request is routed to Finance and Management for final approval to be added to VISION.

WorkCenter navigation: General Ledger WorkCenter > My Work pagelet > My Approval > Chartfield Requests Pending My Approval

or

Navigator Menu navigation: Worklist > Worklist

If there is a number after the Chartfield Requests Pending My Approval, that means there are requests to be processed.

Click on link to review the Chartfield request

Click on the Request ID link to review the request Page
Review the Chartfield Request Form for the items entered.
Refer to the examples in this manual for the various chartfields to ensure the form is correctly completed.

Items to consider during your review:

- Is the new or updated chartfield required?
- Is the Business Unit correct?
- Is the chartfield value correct?
- Is the description provided accurate?
- Does the long description contain relevant information, such as a statute reference?
- Have all the questions been answered completely?

Once you have completed your review of the Chartfield request, scroll to the bottom of the page and click OK.

Now you have two options.

1. If you have determined the request is properly filled out, you can approve the request.
2. If you have determined the request needs to be sent back to the requestor for additional information, you can deny the request.

**Approval of the Chartfield Request**

Click the Select box for the Request ID you want to approve.

Comments are not required to approve the request, but if you want to add them you can by expanding the Comments box, enter comments, then click approve

If you don’t want to add comments, you can just Click the approve button.

The request is now routed to Finance and Management for final approval to be added to VISION.

**Denial of the Chartfield Request**

Click the Select box for the Request ID you want to deny.

Comments are required to deny the request, click on the Comments box to expand, enter comments, then click Deny
The request is now routed back to the requestor, where they can rework and resubmit it for approval or they can decide to cancel it.

**To view Workflow**

Click on the **View Approval Flow** link to see approval routing:

The **Approval Flow** box opens, this shows the two levels of approval
Under the Pending box click the **Multiple Approvers** link to see who can approve the request at the department.

Under the Not Routed box click the **Multiple Approvers** link to see who can approve the request after its approved by the department approvers.

Tracking a ChartField Request Status

**When to use:** To track the status of a chartfield request form you submitted

**WorkCenter navigation:** General Ledger WorkCenter > Links pagelet > Chartfields > ChartField Request

or

**Navigator Menu navigation:** Set Up Financials/Supply Chain > Common Definitions > Design Chartfields > Define Values > ChartField Request

The Add a New Value page opens, click the Find an Existing Value tab:

Set the Request Status field to blank and click Search then select the appropriate request:
The ChartField Request page opens, click on View Approval Flow:

The Approval Flow page opens, click the rotating triangle to see who approved the request:
You may also click the View/Hide Comments link to read any comments:
