Completing a Supplier Update Request Form

Situations where this form is used: When you need to have an existing supplier updated in VISION.

Supplier Update Request Form

USE THIS FORM TO REQUEST UPDATES TO EXISTING SUPPLIERS OR TO ADD SUPPLIERS OUTSIDE THE U.S. OR CANADA

SUPPLIER REQUEST PROCESS

Step 1: If you want to update to an existing supplier, then complete the Top Section and Part I of this form. If you want to have a new supplier created that is located outside the U.S. or Canada, then complete the Top Section and Part II of this form. Use the Form Instructions below to complete all required fields (marked with an asterisk) and optional fields if the information is available.

Step 2: Attach all supporting documentation (W-9 Forms, W-8 Forms, ACH Authorization Forms, email correspondence, etc.) on the attachments page.

Step 3: Double check the request to make sure that all fields contain the correct information and that all proper documentation is attached. This step is important because once a requester submits a request, they will not be able to access it again unless it is denied by Financial Operations. Additionally, Financial Operations cannot change any information that is entered by the requester so if anything is entered incorrectly or entered into the wrong fields, the request will be denied by Financial Operations and sent back to the requester for correction and resubmission.

Step 4: Submit the request for approval. All requests will be handled by priority level by the date/time in which the requests are received. Processing times run anywhere from the same day to five business days.

Step 5: Check the status of your requests by running the VT_SUPPLIER_FORMS query. This query will provide you the new Supplier ID number for approved requests and it will also show requests that have been denied so that you can view them to see if corrections are needed or not.
